

# Bloomfield Record.

S. M. HULIN, Editor and Proprietor.

FRIDAY, SEPTEMBER 11, 1874.

This Record is published every Friday. Office on Glenwood Avenue, near the Depot. Terms \$1.50 per copy in advance, single copies Five Cents.

Advertisements, etc., should be handed in not later than Wednesday, at 1 P. M. No charge for inserting Marriage, Death, or religious notices.

## Street Improvements.

Our Town Committee have settled the question of gas for another year, and a favorable opportunity is afforded for the beginning already made under the Street Improvement law to be pushed forward. We hope that work under the second and third sections of the law, which relates to surveying and laying out on a regular plan, blocks and squares in the township, and also the establishment of grades, will be resumed. Now is the time, if ever, to do this work. Sidewalks and crosswalks have been laid, and are now being put down, at considerable expense. Many of them will need to be taken up and the work done over again when grades are permanently established, or the streets, where necessary, widened and straightened. Doubtless three building sites could be sold in our town where one is now disposed of, if the contemplative buyer or builder knew just where to excavate out his building, and just how deep to stake out the cellar, which he cannot know with any certainty until the side line and center grade of the street is fixed.

Again, there is an urgent necessity for streets to accommodate the public in places where now there are none. Outside of the immediate center, as it is called, there is no immediate call for new streets, but nobody ought to deny the urgent demand for cutting Fremont street through to Broad. If the present Town Committee would consummate the mapping, blocking and opening of the territory embraced in the small quadrilateral made by Bloomfield Avenue, Liberty, Franklin and Washington streets, they would accomplish a decided improvement. The work contemplated in the street improvement law can be done now at much less expense and with greater advantage to the town than at a few years hence. We can now elect good, honest, reliable men as town officers, but we cannot expect to have as intelligent, as conscientious and as discreet representatives always.

Therefore, in view of all these things, it seems eminently proper that the Town Committee of the present year should enter earnestly upon a work so necessary to the prosperity and improvement of our township.

## Our Public Schools.

The attendance at our Public Schools, which was large on the opening, has each day since increased until the number of scholars is greater than it has ever been before. At the opening of Centre School on Monday last, the assembling of classes in the High School room filled it to overflowing. The teachers are busy arranging their classes and studies, and the pupils, for the most part, are entering earnestly and joyously upon the work before them. From the present indications it is fair to anticipate a bright record of progress and achievement in all the departments for the ensuing term.

It has been proposed, by those friends of education particularly interested in the welfare of our School, to offer some prizes for good scholarship at the annual examination next year. No doubt such a project will meet with favor among teachers and scholars, but it will need the approval and sanction of the Board of Trustees. It is true. But are we not a little behind the age in this respect?

It is maintained by those who are opposed to prize recitations, that the plan will react unfavorably and discouragingly upon many scholars who have not the natural ability or determination to engage in rivalry with those more gifted than themselves, thinking there would be no chance for them to gain the reward. We think the instances where this may be expected to result are few and far between. The general effect would be advantageous. A natural emulation, or desire to excel, would pervade the entire school. The prizes, of course, should be graduated, and not restricted to mere scholarship. Dependent and prompt attendance should be made matters of competition as well, and the joint effect of all could not but be beneficial.

Mr. Thomas Morn, landscape artist of Newark, has recently returned from the West, whither he went to sketch the "Mount of the Holy Cross," on the Pacific Slope of the Rocky Mountains. The study is a magnificent one, and its reproduction on canvas, though smaller than the "Chasm of the Colorado" will engage Mr. Morn's close attention during the autumn and coming winter.

Ladies and gentlemen interested in gymnastics, particularly the science of physical training and exercise, should acquaint themselves with the reactionary lifting apparatus of the "New York Health-Lift Co." Mr. Chas. T. Dodd, of Bloomfield, has the agency for Newark at No. 735 Broad street. This system of exercise is highly recommended by many leading physicians and instructors in athletics.

## Our Recent Robberies.

Mr. Editor: I had an interview to-day with our distinguished fellow citizen, Thom. Pierson, Esq. My object was to ascertain some facts which I understood were in his possession in relation to the burglaries in his neighborhood at West End, reported in yesterday's Record. Mr. Pierson received me courteously, acknowledged that the Record had treated him with uniform fairness, and willingly undertook to give me all the information in his power, about the attempt on his premises at West End near the railroad, on that eventful night.

Mr. Pierson keeps two dogs and a revolver, to which—and his own vigilance—he attributes his escape from robbery that night. He was awakened, about midnight, by the barking of the smaller dog, who sleeps very lightly. Instantly rising and without stopping even to put on his slippers, he seized his revolver, sprang to the window, threw up the sash, and fired into the darkness. Unfortunately, at the very instant of the discharge he happened to wink, and so did not know whether his shot took effect. He could find no trace of blood the next morning, and thinks the burglars were not hit, but believes they were frightened off, and proceeded directly to Mr. M. W. Dodd's and Mr. Reford's, whose premises (at West End) they succeeded in entering and robbing as reported in your valuable paper.

Mr. Pierson says the reason Bloomfield is so infested with burglars is that our citizens generally do not take proper precautions, as he does. If every one would keep two dogs and a revolver, and jump out of bed, and fire out of the window every time the dogs bark, we should hear very little of burglaries. But most people sleep all night, relying for safety on the Citizen's Protective Association, which has never accomplished anything yet, except to make a noise after the burglars have escaped. He has often been solicited to join the Association but has steadily refused. He thinks an ounce of prevention is worth a pound of cure, and would rather have one good dog and a revolver than fifty Citizen's Protective Associations.

Mr. Pierson states emphatically that the story of his dwelling having been entered by burglars and robbed of a large quantity of silver plate and jewelry is utterly false. He has lived in Bloomfield a great many years, and never yet was robbed of anything, except an iron-handled post-spike which somebody stole, one day last week, from under a pile of rails, in the woods, while he and his dog were gone home to dinner—and a very valuable little yellow, three-legged dog which was spirited away more than a year ago, and probably murdered by burglars, to whom his sleepless vigilance and incorruptible fidelity had rendered him obnoxious.

P. Q. R.

Bloomfield, Sept. 5th, 1874.

## The Iron Depot Again.

A Montclair gentleman, one of the subscribers to the depot fund, wishes to be properly understood in relation to the above matter. His note addressed to THE RECORD fully explains the appearance in this paper of the other letter:

144 Broadway, N. Y., Sept. 7, 1874.  
EDITOR RECORD: I send you copy of a letter to the Editor of the "Record" which he could not read for in his last number. May I ask you to give it to the public, that I may not be misunderstood in this matter?  
Yours, Truly,  
C. A. HOPKINS.

144 Broadway, N. Y., Sept. 2, 1874.  
EDITOR SUNDAY GAZETTE: Your issue of August 29th contains a letter from Mr. J. H. Pratt accompanied by certificates from subscribers to the "Depot Fund." The first certificate, of one strong approval, is signed by all but Mr. Beatty and myself. Mr. Beatty says, "I decline to express an opinion, while I declare that 'I do not consider Julius H. Pratt, formerly President of the said company, as responsible to me as Trustee or Agent for any money so subscribed and paid by me.'"

Yet Mr. Pratt says all one of the subscribers have "presented him with a certificate of confidence and approval." Mr. Beatty must be the exception referred to, for he certainly did not present him with any such certificate, and the inference is that I join in the approval expressed by the other subscribers. If I did, I would have signed the first certificate; but Mr. Pratt knows from my letter to him on the subject, that I do not approve of his course in this matter, and I fail to see how any such inference can be drawn from the certificate which I signed. I do not consider Mr. Pratt responsible to me as Trustee or Agent, or in any capacity for any sum of money whatever, for the simple reason that I have lost no money. I subscribed \$100 towards procuring a site for the Montclair Railway Co., at Montclair, and paid the money, and the depot is there. Mr. Pratt does not owe me any money and I am willing to give him a bundle of certificates to that effect; but the conclusion which he draws of my confidence and approval is entirely his own.

Yours, Truly,  
C. A. HOPKINS.

## Education in Montclair.

We have been requested to give publicity the following testimonial respecting a well-known educational institution in Montclair:

MONTCLAIR, Sept. 7, 1874.  
Rev. S. B. RODMAN:  
Dear Sir: As parents of some of your pupils, we wish to publicly express our sense of the benefit they have received from your instruction, and warmly recommend your school to the community. We highly appreciate the thoroughness of your teaching, and the thoughtful and intelligent habits which it develops. Your success in arousing the minds of your scholars to independent action and a love of knowledge for its own sake, without the motive of external reward or rivalry has given us great satisfaction. We have the fullest confidence in your method of instruction and wish that by greater publicity, in the future, more of our people here and elsewhere might avail themselves of the privilege of placing their children under your care.

Respectfully,  
R. S. FORD,  
C. E. BROWN,  
C. H. JONES,  
A. G. VAN LERVEN,  
J. C. LEECH,  
W. H. VAN SICK.

The drought has already injured the late crops of corn and buckwheat, in this vicinity, to a considerable extent.

## Town Committee Proceedings.

An adjourned meeting of the Town Committee was held last Friday afternoon, all the members being present.

Reports from the various committees were received, but presented nothing of especial interest or importance. The following accounts were audited and ordered paid: Williams & Plum, Contingent, Account, \$8.95.

J. H. Lockwood, Poor Account \$8.00.  
Michael Noon, \$66.25.  
M. G. & W. Co., for Gas to April 1st, 1874, \$1,302.50.

A petition was received from property owners on Orange street, to have the sidewalk on said street graded and planked. Referred to sidewalk committee.

A petition was received, which was substantially as follows:

"We the undersigned, property owners and taxpayers residing north of the Montclair Railway, would respectfully request that the boundaries of the lamp district be changed so as to exclude all territory in the township north of the said Railway. The petition was signed by Samuel A. Cocke-fair and 80 others. A similar petition was received, signed by Henry Brown and others, asking that all territory east of canal be excluded from the lighting district.

Mr. Richards moved to lay the petitions on the table.

Mr. Oakes thought the petitions ought not to be disregarded. In a discussion which followed it was shown that changing the boundaries of the district would relieve the excluded portions from paying any gas tax, and shifted it upon others, making it heavier than they could pay. It was shown by Mr. L. Cocke-fair, a citizen who presented one of the petitions, that the portion of the town between Bay Lane and the Montclair Railway paid one third of the entire lamp tax, and had but 36 lamps. It was stated by the chairman that the district had been formed in accordance with the law, in every particular, that a meeting had been duly called before making it, to hear objections; that none were made to the district, at that time. He thought there was a question if we could now change the district.

Mr. Reford moved to refer the petitions to Hon. J. W. Thompson for an opinion, whether the district could be altered or not. Mr. Oakes thought there was no question as to the option of the Town Committee to alter the district, in their discretion. The committee of last year had recognized the principle by drawing a line at Bay street, and the petitioners only asked to have the line brought down to the Railroad.

Upon voting it was carried to refer the petitions to counsel, to report at the next meeting.

A written opinion was then read from the Town Counsel, W. K. Williamson, in regard to the petition for an opinion, whether the district could be altered or not. Mr. Oakes thought there was no question as to the option of the Town Committee to alter the district, in their discretion. The committee of last year had recognized the principle by drawing a line at Bay street, and the petitioners only asked to have the line brought down to the Railroad.

Mr. Reford moved to refer the petitions to Hon. J. W. Thompson for an opinion, whether the district could be altered or not.

## LOCAL NEWS.

Fruit jars at E. Wilder's.

Plenty of melons and peaches.

The School Trustees advertise for estimates on coal.

K. K. K.—Kerosene Kontemptuously Killed by our Common Kouncil.

Messrs. Hayes & Taylor are preparing for their usual fall business in stoves, furnaces, etc.

The only noticeable sign of rain this week is the repairing of the steeple on the Old Church on the Green.

The Trustees of the First Presbyterian Church contemplate some improvement of the grounds in front of the church.

Mr. C. A. Van Houten, Town Committee-man from Brookdale, has sent several loads of fine melons to market during the past few days.

CREAM BREAD.—This is an excellent article produced at the bakery of T. T. Cadmus, Bloomfield Center. We believe it is delivered, fresh every morning, to grocers and housekeepers.

Collector Campbell is engaged in preparing tax bills for distribution. The rate is \$1.39 in the Brookdale District. In each of the other districts it is \$2.13. The Commissioners of Appeal, will meet at the Lecture Hall of the Presbyterian Church on Tuesday, Sept. 22, at 9 A. M.

LADIES' RELIEF SOCIETY.—Some weeks since the Treasurer of the Ladies' Relief Society made an appeal, through THE RECORD, for contributions which would enable the Association to cancel its liabilities. A gentleman of our town has responded to that application, thereby placing the Society free from all indebtedness.

MISS A. L. WARD, TREAS.

CROQUET.—It was my pleasure to be a spectator at a match game of Croquet, played last Saturday afternoon, upon the lawn before the residence of Mr. I. C. Ward. The game lasted about two hours, and was played by four ladies and two gentlemen; three upon each side. A large number of persons were present, many of whom ascribed that they had never seen a more closely contested game, nor one more finely played.

W. B. E.

A movement is on foot to erect a new church in the extreme southeastern part of our township, or more correctly, in the City of Newark, the line of which crosses the Old Road at the Akers property. There has been considerable enterprise manifested in that vicinity within the past year or two. Streets have been laid out and graded, and several neat residences have been built. Messrs. D. N. Hayes and J. P. Van Hook, both of whom are known for energy and public spirit in real estate matters, own considerable property here. Each gentleman, we understand, has tendered a handsome lot as a free gift for the new church, on Belmont Avenue.

A man named Charles Wilson was arrested Thursday morning, charged with robbery by Miss Susan Wilson, his aunt, who lives in a stone building on Bloomfield Avenue, near the railroad crossing in Montclair. It is believed that he has been concerned in the recent burglaries in Montclair and Bloomfield. Constable Moses Davis was in New York City Wednesday night, watching Wilson at a place where he was expected to appear. Early this morning, however, word was sent down from Montclair by Mrs. Wilson, stating that Charles Wilson had slept in his barn near the railroad crossing, and was about leaving town. Constable G. W. Perry immediately started after him in a wagon, finding him on Ridgewood Avenue, near Washington street. Wilson ran swiftly through Washington, and Montclair, and was captured by Constable Perry at last captured him near Ashley's sand pit. He was brought to town for examination and committed to jail. He was a desperate-looking young fellow, and has been about this vicinity for the past month, after having followed the sea.

Married.

Messrs. Laverie, in Newark, August 21st, by the Rev. Thomas Warren, Augusta M. C. Hensick, of Newark, to Sarah J. Lewis, of LaPort City, Iowa.

AGUE FLOWER.—The most miserable being in the world are those suffering from dyspepsia and liver troubles. It is a common complaint, and one of the people in the United States are afflicted with these two diseases and their effect; such as sour stomach, sick headache, habitual constipation, impure blood, heartburn, water-brash, gnawing and burning pains at the pit of the stomach, yellow skin, coated tongue and disagreeable taste in the mouth, coming up of the food after eating, low spirits, &c. Go to the Drug Store of GEORGE R. DAVIS, and get a 75 cent bottle, or a sample bottle free. Try it.
